

RAJAGIRI SCHOOL OF ENGINEERING & TECHNOLOGY
DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

102003/CS722T SEMINAR (2023-2027 Batch)

GUIDELINES

1. Selection of Topic

- a. The topic of the seminar should be current and relevant, and closely related to the project research area if possible. (10 marks – Seminar Guide)
- b. Every member of the project team should choose seminar topic in such a way that the various aspects of the project is covered.

2. Approval of Topic

- a. The seminar topic has to be approved by the Seminar guide and concurred by the Seminar Coordinator.
- b. Concurrence from Seminar Coordinator is essential for ensuring uniqueness of the topic in class/batch.

3. Seminar Diary

- a. Every student should maintain an individual Seminar Diary (A4 size notebook with minimum 100 pages).
- b. Diary entries commence from the date of approval of seminar base paper.
- c. Diary entries are to be signed by the Seminar Guide twice a week. (10 marks – Seminar Guide)

4. Before seminar presentation

- a. Every team-member in the project group must choose a **seminar base paper**, in such a way that it will effectively help the team to do a comprehensive literature review for their project. For example, if the project is related to “Character Recognition using Deep learning”, then some of the algorithms that may be used are: CNN, RNN, LSTM, etc. Each team-member must select **one base-paper** (preferably published during the period **2020-26**) published in **SCI/SCIE/SCOPUS indexed journals**, which illustrates in detail about say, “character recognition using any one of these algorithms or their ensemble”.
- b. Hard Copy of the base paper is to be approved and signed by Seminar Guide. Abstract of the Seminar is to be submitted to the Seminar Coordinator.
- c. The student must also identify **at least four more journal articles / reputed conference proceedings** (Springer, IEEE, Elsevier, ACM) related to their seminar base-paper as the **literature review of their presentation**. These papers must be studied thoroughly before the seminar presentation and a comparative analysis of the methodologies used maybe included at the end of the presentation.
- d. Seminar Diary to be submitted to the Seminar Coordinator on the day before the presentation. (10 marks – Seminar Coordinator).
- e. Soft Copy of the approved PPT to be submitted in Google Class room.

5. During seminar presentation

- a. Each student must prepare a PPT of their seminar presentation preferably using LaTeX Beamer. The presentation may contain about 20-25 slides.
- b. The PPT format can be as follows:
 - Introduction (1-2 slide)
 - Motivation (1 slide)

- Objective (1 slide)
 - Methods (Major algorithms in the base paper may be presented here. You can also present the significant findings/alternative algorithms/methods in the literature review. The contents of at least five literature review papers must be included. Students are expected to have an in-depth understanding of the working principle of the algorithms. 13-18 slides)
 - Comparison (Preferably in tabular format. 1-2 slides)
 - Conclusion (1 slide)
 - References (1-2 slides, minimum 10 references in Harvard referencing style. All the references must be duly cited in the text)
- c. The quality of the slides should be highly professional (10 marks – Evaluation Committee).
 - d. Slides should be clear and concise, with 20 minutes presentation time (10 marks – Evaluation Committee).
 - e. The PPT must be scrutinized and ratified by the seminar guide before presentation.
 - f. Q&A Session (10 marks – Evaluation Committee).
 - g. Participation by Audience (5 chances for each student * 2 marks = 10 marks – Evaluation Committee).
 - h. Once the presentation schedule is published, the students must strictly adhere to the schedule. No leniency will be provided in this regard.

6. After seminar presentation

- a. Submit the draft seminar report to your guide within 5 days of completing the project. The final hard copy must be submitted within the following 2 days. Therefore, all students are required to submit the hard copy of their report within 7 days from the date of their seminar.
- b. Follow the guidelines/ deadline for Seminar Report.
- c. Submit the soft-bound Seminar Report (10 marks each by Seminar Guide and Seminar Coordinator).

Note – In case, a student fails to present the seminar or is unable to answer the Q&A session, the seminar presentation has to be repeated. The decision on this regard taken by the Evaluation Committee is final and bounding.
